**DAIRY FARMERS WILL RECEIVE \$12.19 FOR JANUARY MILK**

---

ALBANY, NY, February 12—Dairy farmers who supplied regulated milk dealers (handlers) under the New York-New Jersey marketing orders during January 1993 will be paid on the basis of a uniform price of \$12.19 per hundredweight (26.2 cents per quart); the price for the corresponding month last year was \$12.97 per hundredweight. Market Administrator Ronald C. Pearce also stated that the price was \$12.57 in December 1992. The uniform price is a marketwide weighted average of the value of farm milk used for fluid and manufactured dairy products.

A total of 12,290 dairy farmers supplied handlers regulated under the New York-New Jersey marketing orders with 968,896,619 pounds of milk during January 1993. This was an increase of 0.6 percent (about 6 million pounds) from last year. The gross value to dairy farmers for milk deliveries was \$119,621,311.34. This included differentials required to be paid to dairy farmers but not premiums, deductions authorized by the farmer, or assessments.

Regulated handlers used 390,108,362 pounds of milk for Class I, 40.2 percent of the total. This milk is used for fluid milk products such as homogenized, flavored, low test, and skim milks. For January 1993, handlers paid \$14.26 per hundredweight (30.7 cents per quart) for Class I milk compared with \$14.90 a year ago.

Handlers used 155,658,407 pounds of milk for Class II products, 16.1 percent of the total. Class II products include fluid cream, eggnog, cottage cheese, ice cream, and yogurt. Handlers paid \$11.20 per hundredweight for this milk.

The balance (423,129,850 pounds or 43.7 percent) was used to manufacture Class III products including butter, cheese other than cottage cheese, and dried milk. Handlers paid \$10.92 per hundredweight for this milk.

The uniform price is based on milk containing 3.5 percent butterfat. For January 1993, there was a price differential of 7.1 cents for each one-tenth of one percent that the milk tested above or below the 3.5 percent standard.

All prices quoted are for bulk tank milk received from farms in the 201-210 mile zone from New York City.
